# About

**DPCS**  
DJIBOUTI PORT COMMUNITY SYSTEMS

Djibouti Port Community Systems Company is a subsidiary of Djibouti Ports & Free Zones Authority (DPFZA).

DPCS has been setup to digitalize the different processes linked to importing/exporting through the ports, airports, rail and corridor. Its product, the Port Community System aims to leverage technology to simplify, connect and streamline those processes.

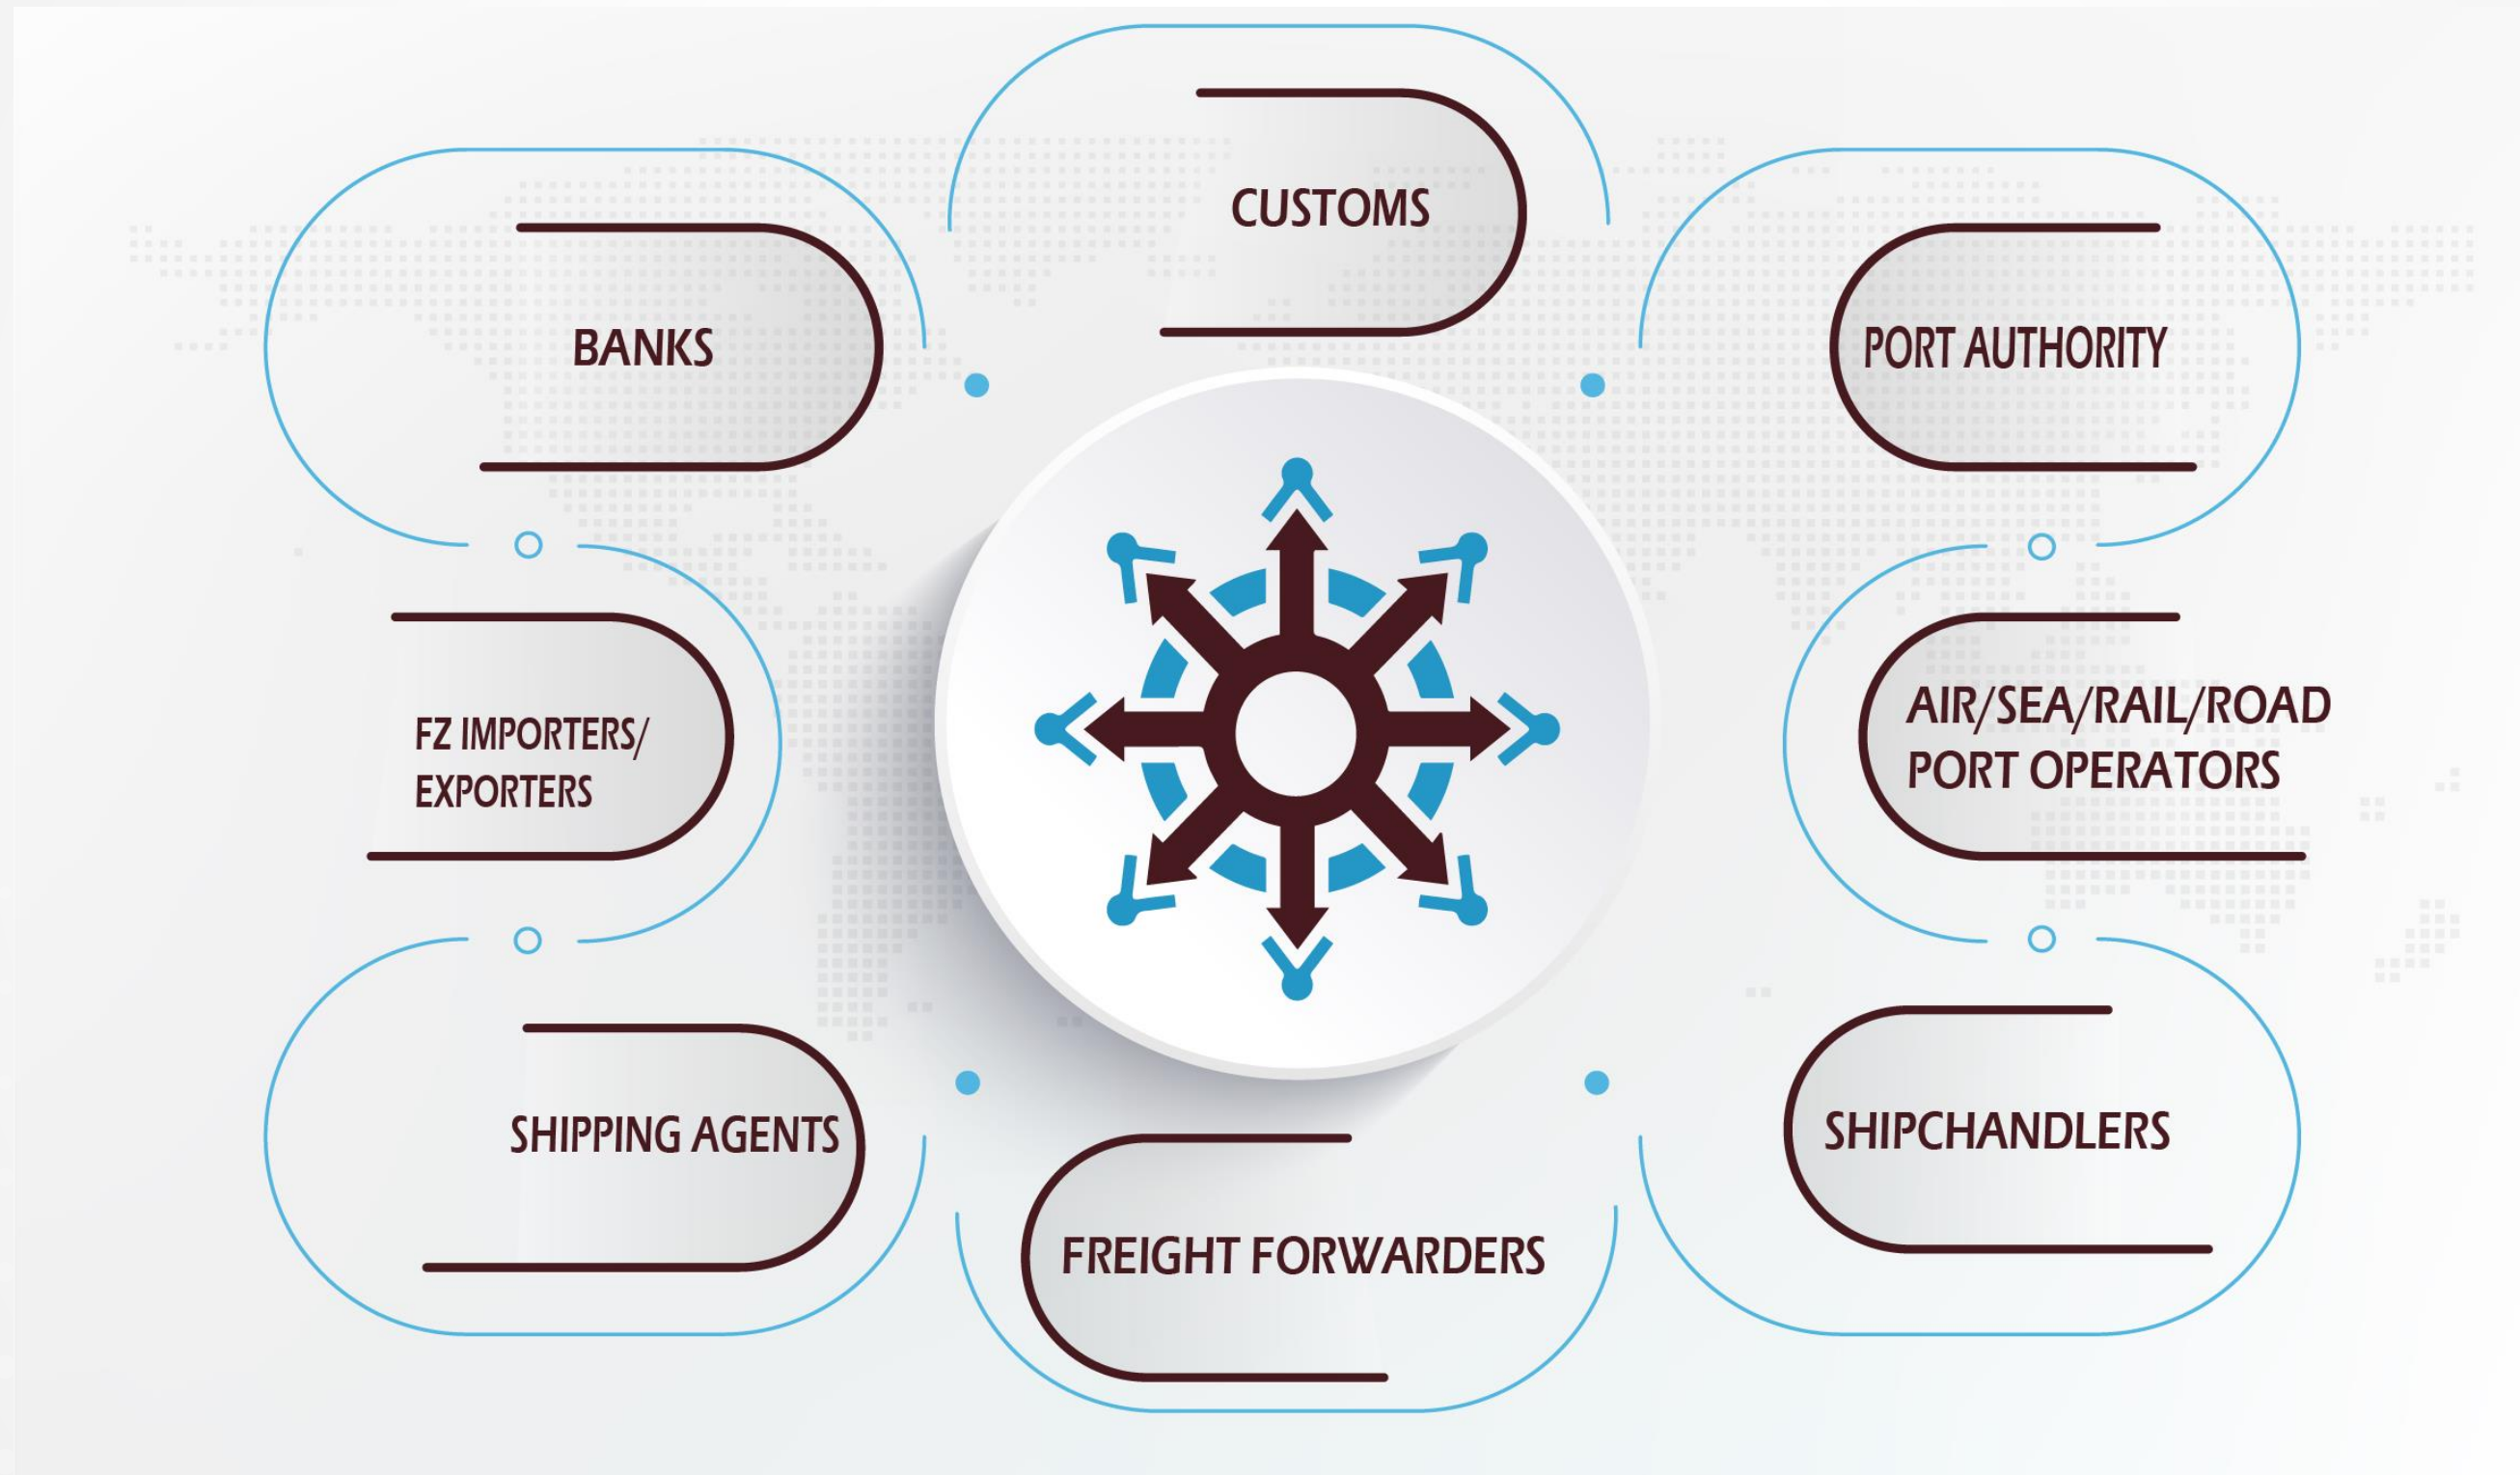

# Structure

# Stakeholders

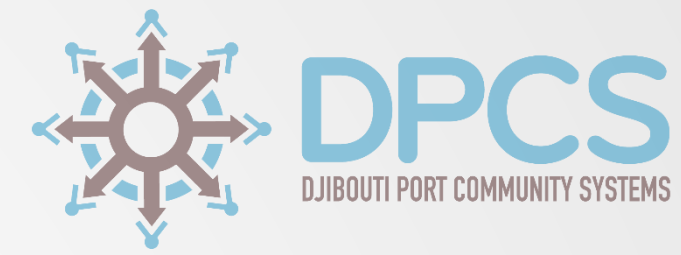

# Main Features

- Vessel Management
- Arrival/Departure Management
- Cargo Management
- Customs Integration
- E-Gate Appointment
- Transit Corridor Services
- Integrated Online Payment

# Shipping Agent Services

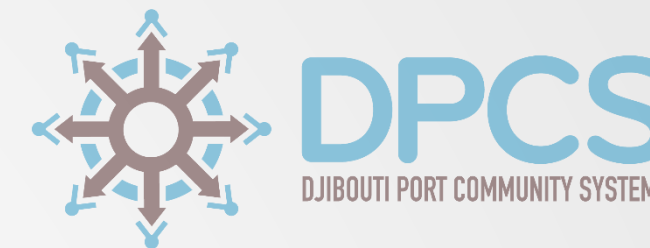

Number	Services
S1	Vessel Registration
S2	Arrival Report
S3	Arrival/Departure Declaration (IMO FAL 7 forms)
S4	Berth Request
S5	Morring Request
S6	Tug Request
S7	E-Manifest
S8	Loading-Unloading Lists
S9	Invoices
S10	Bay Plan
S11	E-Port Clearance
S12	Packing list
S13	Stowage Plan
S14	Nomination Second Carrier
S15	Cargo Plan

The screenshot shows the DPCS web dashboard interface. On the left is a dark sidebar menu with various service categories. The main content area includes a top navigation bar with the language set to English and a user profile for 'touser26'. Below this is a 'Dashboard' section with a prominent red banner indicating '223 Total Number of Berth Application completed'. The dashboard features several data visualization widgets:
 

- Number of Berth Application completed Month Wise:** A bar chart showing monthly completion counts from April 2019 to September 2019.
- Number of Berth Application Approved/ Rejected Month Wise:** A bar chart comparing the number of approved (red) and rejected (orange) applications monthly.
- Berth Response Average Time Month Wise:** A horizontal bar chart comparing response times for April 2019 (69/251) and August 2018 (3/251).
- Number Of Loading/ Unloading Done Month Wise:** A bar chart showing monthly counts for discharged (red) and loaded (orange) cargo.
- Vessel Turnaround Time Month Wise:** A bar chart showing monthly turnaround times.

 A table titled 'Berth Application' is also visible, listing application details such as berth number, port, vessel name, shipping agent, status, submission date, and response date.

# Freight Forwarder Services

Number	Services
FW1	E-DO
FW2	DO Invoice (Optional)
FW3	Port Fees Invoice
FW4	Transport Order
FW5	Booking
FW6	Pregate
FW7	Gate In/Gate Out Tracking
FW8	Freight Booking
FW9	Shipping Note
FW10	Empty Return
FW11	Empty Release
FW12	Stuffing/Destuffing Report
FW13	On Premises Booking (SGTD)
FW15	Custom Declaration (on-going)
FW16	Corridor Road Pass

The screenshot displays the DPCS web application interface. The main page is titled 'Dashboard > Edit Slot Details'. It features a sidebar menu with various navigation options like 'Bay Plan(PCS)', 'Booking Delivery Time', and 'BPM'. The main content area shows 'SCHEDULE DETAILS' with fields for Booking Reference No., Start Date, Cut Off Time, Terminal, Schedule Reference No., End Date, and Inbound/Outbound Indicator. Below this is a 'SLOT DETAILS' table showing a time schedule from 04:00 to 16:00 hours, with columns for UNAVAILABLE, AVAILABLE, and REQUESTED slots. A 'Select Slots' modal window is open, allowing users to select a shift (12-HOUR-SLOT), slot date (01/07/2019), slot (08:00 - 09:00 hrs), type of cargo (CONTAINER), and number of containers (8). It also includes fields for 'Non Empty Containers' (7) and 'Empty Containers'.

# Free-Zone Services

Number	Services
FZ1	Company registration
FZ2	Visa Request
FZ3	Residency permit

Outbound Gross Weight : 64.98	Chassis Number : NPSBCOMPOUNDFERTILIZER

# Advantages

- Single submission facility reduced multiple submission of the same data and manual processes.
- Berth Allocation response time reduced from 72h to 1h
- 1h response time regulation enforced By Djibouti Ports and Free Zones Authority
- E-port clearance was able to save 5 hours during working hours and +12 hours if the vessel wanted to depart off hours. It also saved up to \$650 used for renting a tug-boat to bring the manual port clearance on-board.
- Forwarders port documentation process (invoicing, slot booking and port gate pass print) was reduced from 1 day to an average of 45 mins.
- Better Visibility of documentation process for logistics community as well as the approval time of authorities
- Better Tracking of cargo trucks in the transit corridor
- Increased visibility for the importer/exporter in Ethiopia of the freight forwarder activities like document submission and approval times.
