

## Activity Sheet 24

# Impact of Road Improvements

### Purpose

The purpose of this activity is to examine problems faced by villages which are isolated from major roads, and explore indicators – particularly economic and social - for measuring the potential impact of road improvement projects.

During this activity participants may draw on their experiences of designing indicators.

### Group Work

1. Discuss the following questions:
  - A. *What are the problems faced by villages not connected by an all-weather access road to a major road or market centre?*
  - B. *What social and economic indicators can be used to assess the expected impact from the improvement of roads?*
2. Prepare your findings on flipchart.
3. Elect a person from your group to present your findings to the plenary.
