

Activity Sheet 31

Project stages for community participation

Purpose

The purpose of this activity is to analyse in detail the different components of each of the steps for increasing community participation in RTI (rural transport infrastructure) projects.

The steps are:

- ① Screening
- ① Assessment of capacity
- ① Organisation forming and linking
- ① Planning and design
- ① Implementation
- ① Monitoring and Evaluation
- ① Sustainability

Group Work

1. Each pair/group will work on only **one** of the steps listed above.
2. In your pair/group discuss the following:
 - A. *What is the purpose of this step?*
 - B. *What issues should be explored for this step?*
 - C. *What methods can be used to explore issues?*
3. Prepare your findings on flipchart and elect a person to present the findings
