

Activity Sheet 42

Commercial road funding in developing country context

Purpose

The purpose of this activity is to provide participants with the opportunity to reflect on issues affecting the commercial management of roads within the country contexts in which they are working. The role of commercial road funding key issues may also be explored.

Group Work

1. Discuss the following questions:
 - A. *What are the technical, financial and political constraints to rural transport for developing/in transition countries?*
 - B. *What aspects of commercially managed road funds enable them to address these constraints?*
2. Prepare your findings on flip chart and elect a person to present the findings.
