

Activity Sheet 65

Weighing the evidence: which road alignment should be selected?

Purpose

The purpose of this activity is to assess the evidence presented and make recommendations on which road alignment should be selected. The pros and cons of each choice should be examined.

Group Work

1. Based on the evidence presented to you so far:

Given the benefits and negative impacts outlined above, which road alignment should be selected and why?

2. Prepare your findings on flip chart.
3. Elect a person to present the group's findings.
